

Accessibility, health and safety:

Please remember that this is an old cottage with beams, low doorways and a winding staircase. It may not be suitable for all.

The cottage sits back from the roads in the heart of the village. Off street parking is available at the back of the cottage for up to two cars. Entry to the off-street parking is down the gravel lane to the rear of left of the cottage. This is a shared access so please do park with consideration.

The flooring throughout the ground floor is wood and the ground floor is even and on the same level.

There is a toilet and shower area off the downstairs lobby and a single bedroom (with trundle to make as double) on the ground floor - so this cottage suits those who find stairs more difficult.

Doors can be narrow and the cottage is not suitable for wheelchair access.
